- Java Programming Language

PROFESSİONAL EXPERİENCES

İdeasoft Yazılım Hardware Intern — **July 2022**

- During my studies, I finished an internship in hardware, which gave me real-world experience in computer engineering.
- I worked on projects like maintenance, troubleshooting, and hardware testing.

Turkuvaz Medya Software Intern — **July-August 2024**

- I implemented compulsory internship for one month and additionaly 1 month volunteer internship.
- I developed an Admin panel with PHP Laravel Freamwork and Laravel Rest API.

EDUCATION

Üsküdar University
Computer Engineering
GPA : 3.56/4.00

September 2019 -June 2024
İstanbul-Turkey

PROJECT

Full-Stack Development of a Hospital Website

- I developed a comprehensive website for a private hospital using PHP Laravel, C++, and HTML, featuring a services list and an appointment button that directly connects to WhatsApp for streamlined communication.
- The website is SEO-integrated to enhance online visibility and includes an admin panel that efficiently manages all services. This project honed my skills in web development, backend system design, and user experience optimization while demonstrating my ability to create functional and well-structured solutions tailored to both user and administrative needs.

Admin Panel

- Skilled software developer with experience in building robust admin panels using PHP and the Laravel framework.
- Developed and integrated a dynamic admin panel with a Laravel REST API, featuring comprehensive product, category, and user management sections, as well as campaign and order modules. Demonstrated strong proficiency in PHP programming and backend development.
